

TWEEK

TWEEK is a hip-hop seven-piece band including the rappers Oni/Epik and Luthor on the beatbox. They quickly stood out for being impressive performers combined with a unique sound by mixing hip-hop, electro and distorted guitar riffs. After releasing 4 EP's which led the them to perform in the most prestigious venues throughout Switzerland (Paléo Festival, Festi'Neuch, Rock Oz'Arènes, Caribana Festival, Gürten Festival, Montreux Jazz Festival, Les Docks...), in highly regarded Parisian clubs (le Divan du Monde, le Bus Palladium...), TWEEK released their long awaited self-titled debut album in 2017.

Produced in collaboration with Maxime Steiner and Daniel Bleikolm at La Savonnerie Studio in Brussels, the LP takes you to a journey where synthetic textures and live instrumentation meet halfway to offer a sonically modern and indefinable album.

The 2017 tour delivered its promises with a brand new light show and the group's vibrant showmanship, which can only lead to a promising 2018.
